Upcoming Sustainability Events

2024

- **Botswana Sustainability Week. Theme: 'Investing in ESG & Sustainability - Aligning profitability with positive environmental and social impact'.** Host and Sustainability & ESG Speaker.

Date: 8-10th July 2024, Gaborone, Botswana

Green Loop shall host the 2nd Botswana Sustainability Week in collaboration with the Ministry of Environment and Tourism, the United Nations Global Compact, European Union Delegation to SADC and Botswana, Green Loop Foundation, Association for Women in Science Botswana (AWIS-BW) and potentially one of the global countries with a locally based embassy in Botswana leading in ESG. The main focus of this year's event is to continue the journey to engage Botswana and organizations that operate in Botswana to take a deep dive and unpack the ESG value proposition to align profitability with positive environmental and social impact.

- **Sessions in the Loop** - Sessions in the Loop is in its growth path, the last session attracted 60 participants from across the public and private sectors; banks, insurance, energy, mining, agriculture, health, technology and others. It has become clear that ESG reporting is a hot topic as various organisations are becoming aware of ESG as the best business practice of now, and we foresee growth and opportunity to attract a diverse group of participants at each of our sessions.

This year, Green Loop Consultants intends to use this platform as a build up to the 2nd Botswana Sustainability Week with a view to drive build up from different interest groups and continue to educate ahead of the Sustainability Week, which is planned for 8 to 10 July 2024. Joint campaigns shall be undertaken with personnel from the PR office of Ministry of Environment and Tourism, United Nations Global Compact, European Union and London Sustainability Week. We expect to impact various media houses, employees from BSE listed entities as well as experts from various industries

Our Projects

Sustainability Events

2023

- **Botswana Sustainability & ESG Summit 2023. Theme: 'Climate change accountability through sustainability and ESG frameworks'.** Host and Sustainability & ESG Speaker. The inaugural Botswana Sustainability and ESG Summit was successfully held from the 21st to the 22nd of November 2023 in Gaborone, Botswana. As first of its kind, the Sustainability Summit emerged as a groundbreaking event that brought together thought leaders, public and private sector committed to shaping a sustainable green future for Botswana. Approximately 30 speakers participated in the panel discussions and shared case study presentations. The event unpacked ESG to all stakeholders and paved the way for commitments and actionable organizational strategies from 2024 that shall undoubtedly shape Botswana's sustainable development journey in the years to come. The shared vision of a green, responsible, and thriving Botswana echoed in various presentations, panel discussions and exhibitions, left a lasting sustainable impact on all participants.

Sessions in the Loop - Sustainability awareness platform for Green Loop Foundation and Green Loop ESG Consultants to share knowledge on the importance of ESG in addition to encouraging organizations to discuss their ESG contributions to Botswana's market in a casual and relaxed setting. The sustainability event is held on a quarterly basis.

- **Sessions in the Loop, Volume 1. Launch of platform the awareness platform to unpack what sustainability and ESG mean to various sectors of Botswana.** Host and Sustainability & ESG Speaker. The first session was successfully held on the 31st March 2023 in Gaborone, Botswana with approximately 40 attendees from the public and private sectors. The Sustainability awareness platform unpacked the potential of Botswana to lead in issues of ESG through various shared impactful local projects.
- **Sessions in the Loop, Volume 2. Theme: ESG vs SRI vs IMPACT.** Host and Sustainability & ESG Speaker. The second session was successfully held on the 24th May 2023 in Gaborone, Botswana with approximately 50 attendees from the public and private sectors. To set the tone, the second edition unpacked the existing environmental protection and climate change legislative tools through the attendance of the Ministry of Environment and Tourism, Department of Meteorological Services Climate Change Coordinator. The session provided a platform for various stakeholders to discuss and engage to relate ESG to Social Responsible Investing (SRI) for country wide community and environmental impact while making a profit.
